

Meet the Grower

Gem Tomato Sales Benton Harbor, MI

Following a rich family tradition and recognizing increasing consumer demand for locally grown vine ripened tomatoes, Gem Tomato Sales was founded in 1982. For nearly a quarter century we have followed the seasonal harvest beginning in Florida and progressing Northward cultivating long term relationships with leading farm families. With reliable supply from multiple states, progressive packaging options and overnight delivery to most major markets, regional promotions proved to be a powerful marketing tool. Sales continued to climb and today, as demand for locally grown products reach new heights we remain committed to providing consumers with an abundant supply of premium quality, safe and reasonably priced fresh tomatoes. A truly satisfying summertime experience!

Since 1982 our organization has been dedicated to the marketing and promotion of fresh market vine-ripened summertime tomatoes!

It's No Secret!

Tomato lovers everywhere recognize that the long warm days and cool nights provide freshness and flavor that sets summertime apart from the rest of the seasons. **From Seed to Harvest...**

Plants are started from seed and nurtured to maturity. Each fruit is hand-picked at the peak of flavor and quickly delivered, avoiding long refrigeration periods that can destroy great tomato taste.

Near the fertile shore of Lake Michigan, local family farms are working together to provide consumers with an abundant supply of great tasting, safe and reasonably priced summer tomatoes.

Shipping July through October from our Benton Harbor facility we provide...

- Quality Vine Ripened Tomatoes including: Round, Roma, Grape, Cherry and Yellow Tomatoes in a variety of packaging options and styles.
- PLU labels available on request.
- Same day or overnight deliveries to most major markets.
- Fresh Summer Flavor
- Safety / Value
- Central Supply
