

Meet the Grower

Stir Cold Brew Coffee Bloomington, IN

STIR Mobile Coffee LLC (DBA Stir Coffee) is a local business based out of Bloomington, Indiana owned by Bloomington natives Alex Rubin and Chaz Sinn. We specialize in the production of ready-to-drink (not concentrated) bottled cold brew coffee products utilizing only ultra-fresh locally roasted coffee.

We originally launched in 2015 with a fully customized van built for use as a mobile coffee business. Since then, we have evolved into the cold brew bottling company we are today. Our very first bottles of cold brew were sold in 2017 and we haven't looked back. In 2018 we began working with Piazza Produce, a regional distribution company, located in Indianapolis. We are also proud to be a verified brand on RangeMe and members of Indiana Grown.

Why are we better than the competition? That's easy. Our cold brew is one of the freshest products on the market, we believe this is key. We brew in small batch quantities to provide premium quality and consistency while always maintaining peak freshness. Our cold brew is ultra-smooth and absolutely delicious while giving our consumers the energy they need without upsetting any stomachs along the way due to low acidity. We offer multiple varieties from our best-selling original unflavored and unsweetened cold brew to lightly sweetened and flavored options. We have a product for everyone! All of our cold brew products are ready-to-drink (not concentrated) straight out of the bottle. We offer utmost convenience to our consumers as the perfect on-the-go cold brew with a spill proof screw-on-cap. We are priced competitively with national brands but offer far better quality and freshness that national brands simply cannot replicate.

Ever fall in love at first sight? Fall in love with us at first taste.
