

Meet the Grower

Midwest Fresh Marion, IN

WELCOME TO MIDWEST FRESH

We are a Specialty Food company; providing locally sourced, non-gmo, gluten free products. Perfecting traditional sauces and creating new wonders like our Bacon Jam is just the beginning.

Quality Food starts at the beginning. Planting quality seed managed by people that love what they grow. Sourcing fresh quality Midwest ingredients is the only way to offer quality unparalleled on any shelf. We are removing the six months of supply chain, bringing you the best in the Midwest! Made with American grown produce, herbs, and spices. We make it the best. This is Real Food.

There is no better feeling than accomplishing your goals. Years ago, I made a promise to be a chef, and cook real food. Now I want to share with everyone the tastes that have been created. Midwest Fresh IS the Love that I have for my food bottled with the desire to provide something better for everyone.

Growing up in Indiana has provided me with the flavors of seasons, from fresh sweet corn, to beautiful mushrooms. The Midwest is the best! Hence the name, the calling for something better, something everyone has had but no one has really tasted, until now...
